Title: Battery Storage Framework

Reference number: Q0956

OJEU Contract Notice: 2018/S 092-208903

OJEU Award Notice: 2018/S 184-416884

Start Date: 01/09/2018

End Date: 30/08/2022

What is it?

The ETL battery storage framework streamlines the procurement process for battery storage by providing pre-negotiated, EU-regulation-compliant contracts that can be used with a group of pre-qualified suppliers.

Who is it for?

This framework is available to both public sector organisations (NHS, local authorities, government bodies, higher education, etc.) and private organisations wishing to benefit from our experience and pre-qualified supply chain.

Why battery storage?

Battery storage systems store electricity from the grid or from local generation systems (e.g. solar, wind or CHP) to discharge when required.

There are multiple benefits to installing a battery storage system:

INCREASED RESILIENCE AND SECURITY OF SUPPLY

SAVINGS THROUGH TARIFF ARBITRAGE (Duos savings, triad savings, wholesale market trading, etc.)

REVENUES THROUGH DEMAND SIDE RESPONSE (FFR, Capacity Market, Balancing Mechanism, etc.)

REDUCED CARBON EMISSIONS (in combination with local generation)

Why the ETL framework?

Unique in the UK

Free-to-access

Fully public sector compliant

Possible inclusion of ancillary technologies, such as solar and EV charging points

Flexible in approach to develop, tender, and implement projects

Fast-tracked multi-quote or mini-competition

Project, technical and contractual support throughout from ETL

Demonstrated procurement expertise

Our trusted supply chain:

What other services do we provide?

- Energy Performance Contracting (EPC) Framework (reference number: Q0914)
- Net Zero Delivery Framework (reference number: Q1133)
- LED Lighting Framework (reference number: Q0967)
- Strategic Sustainability – Green planning, travel planning, sustainable design and other sustainability support.
- Funding Support

About ETL

ETL is unique. Combining NHS values with commercial focus, we deliver innovative solutions to help clients improve their efficiency and effectiveness.

We work with clients throughout the NHS, local authorities, education and other sectors, both public and private.

We are experts in creating sustainable solutions that will deliver cost, carbon and energy savings. ETL is wholly owned by Guy's and St Thomas' NHS Foundation Trust and our profits are invested back into the NHS.
