What is it?

The award-winning ETL EPC framework streamlines the procurement process by providing pre-negotiated, EU-regulation-compliant contracts that can be used with a group of prequalified suppliers.

Who is it for?

This framework is available to all public sector organisations (NHS, local authorities, government bodies, higher education, etc.) wishing to deliver largescale cost and carbon savings with guaranteed returns on investment.

Benefits of an EPC?

Through an Energy Performance Contract (EPC), public sector bodies can deliver:

STRATEGIC ENERGY MANAGEMENT PLANS

GUARANTEED COST AND CARBON SAVINGS

BACKLOG MAINTENANCE AND BUILDING SERVICES RESILIENCE

What can be included in an EPC?

Any infrastructure improvement to your estate can be included in an ETL EPC. Typically an EPC encompasses:

- Combined heat and power (CHP) and energy centre upgrades
- Lighting and controls
- Heating, ventilation and air conditioning (HVAC) upgrades and controls
- Automated metering and targeting (AM&T)
- Renewable energy technology
- Backlog maintenance
